FORMER ERNST & YOUNG PARTNER LAUNCHES SECURELY YOURS LLC, A MICHIGAN BASED INFORMATION SECURITY CONSULTING FIRM.

Bloomfield Hills, MI March 3, 2011 – Sajay Rai, internationally recognized expert in Information Security, along with Philip Chukwuma announced the official launch of Securely Yours LLC. The firm has been working on developing innovative solutions with clients over the past two years.

The firm will provide companies with cost-effective solutions in the area of information security, privacy, disaster recovery, business continuity, information technology audit, and risks.

“Organizations are faced with not only protecting their critical assets from external and internal threats, but also making sure that they are in compliance with international, national, state, and local regulatory laws. With the proliferation of smart devices and cloud computing, the task of protecting the critical assets is daunting. Now is the time to take control of the assets and protect the organization’s crown jewels.” - Sajay Rai

Philip Chukwuma knows that organizations sometimes become complacent in fully understanding the threats to their information assets. Sometimes it is not what happens to the information assets within the organization’s four walls, but what happens at the organization’s business partners can compromise the information asset. Philip’s recommendation to his clients has always been to understand that the “strength of their security program is only as strong as its weakest link”.

Securely Yours has worked with several local and national clients to ensure that their solution is effective, innovative and addresses the security and compliance requirements. “Securely Yours provided a team of experts to help us develop our Disaster Recovery Plan. They exceeded all our expectations, delivered a comprehensive DR plan and the fees were a lot lower than what we would have paid larger consulting companies”, says Jason Hittleman, former Director of Information Systems, RKA Petroleum Companies.

Securely Yours LLC provides consulting services to Fortune 1000 companies that enable our clients to secure and manage their information assets. For more information about Securely Yours LLC services, please contact Erica Ladu at ericaladu@securelyyoursllc.com.
